AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all mail matter.

Prepay postage fully.

Use street and number in return address on your envelope and also letter heads.

Always address mail for city delivery to street and number, and request correspondents to do likewise.

Use designation North or South, West or East when it is a proper part of the address and save delay in delivery.

Insure valuable parcels.

Wrap parcel post carefully in heavy paper, and tie knots securely.

Do not use cards or envelopes smaller than a Government Postal Card.

Avoid the use of the word "City" as a part of the address. It may result in delay.

Avoid abbreviation of state names; Pa., Va., and La., frequently look very much alike when written. It is difficult to distinguish between Me., Mo., and Ind., or Cal., and Col. The abbreviation recommended for Colorado is Colo., and for California is Calif.

YOU WILL OFTEN GAIN A DAY'S TIME IN DELIVERY BY DEPOSITING MAIL AS SOON AS IT IS READY.

Pamphlets showing the hours "Mails Close" at the post office, and the time in transit between all of the large cities in the United States, may be had upon application to the Superintendent of Mails.

PLAN your home for TOMORROW!

It is easy to install telephones with eye-pleasing effect in your new home when you provide for "Concealed Telephone Wiring" in the plans. This modern feature, simple and inexpensive, consists of piping to carry the telephone wiring placed inside the walls before the plastering is done. "The Classified Telephone Directory" is always on duty.

GUILTY?

Is there one of us who doesn't owe a letter — to someone, — some place ...? If we plead guilty, let's pass an easy sentence on ourselves; telephone that overdue letter — instead of writing! It's much more satisfying and costs so little, especially after 7 P. M. and all day Sunday when reduced rates are in effect to most places.

Communication Services
FOR THE MODERN HOME OR OFFICE

Up-to-date telephone arrangements and services put more comfort and convenience in the home and more speed and efficiency in the office. A few of these convenient time-saving telephone facilities are listed below:

Telephone Systems
For communicating inside the home or office as well as outside from the same telephone instrument—the last word in telephone convenience.

Telephone Typewriters
For flashing over telephone wires written messages between various branches, factories, or office departments whether in the same building or across the continent.

Portable Telephones
Which plug into telephone outlets making available telephone service in any room or part of the premises desired.

Secretarial Plans
So that calls for persons absent or busy may be answered from the secretary's telephone. Additional features of holding and transferring calls may be provided.

Telephone Order Tables
For speeding the work of order takers and contact people who must talk to a large number of customers and prospects every day.

. . .

For complete particulars on these or other telephone services, just call the Telephone Business Office.

COMFORT

When you install extension telephones you add more comfort and convenience to your home. Always within reach, they save countless footsteps and the annoyance of running from one end of the apartment to the other every time the telephone rings. Your home deserves this added up-to-dateness, especially since it costs so little.

Our nearest Business Office will be glad to suggest convenient telephone arrangements for your home.

if
NO ONE ELSE HAD A TELEPHONE
you would need neither a telephone nor telephone directory advertising.
But when thousands of people in this city do much of their buying by telephone and depend upon the Classified Telephone Directory to tell them where to buy, you'll find your sales message before them all the time will make your telephone pay dividends. Try it.

Every Home Needs This Help

—help that never takes a holiday —the telephone.

During the day—it runs errands, saves trips in bad weather, keeps you in touch with friends, makes it easy for friends to keep in touch with you.

In the evening you can ask friends over, take care of a business matter or enjoy a chat with a friend or a relative near or far.

Any time, day or night, your telephone is always ready to bring help in an emergency.

The cost is perhaps no more than you and your family spend at public telephones. Why not order today at the Business Office and have your name in the next issue of the telephone directory?

NAP-O-VAC

GENUINE NAPHTHA CLEANING

Why Naphtha?

. . because cleaning in NAPHTHA preserves original beauty and lustre of Oriental and Domestic rugs.

RUGS are drenched for hours in distilled naphtha. Stains dissolve. Dirt and dust are gently removed by continual rinsing in thousands of gallons of naphtha. Cleans surface, pile and back. Destroys moth eggs. It does not remove the natural oils in rugs. Leaves the threads strong and full of life. Colors are restored to their warmth and beauty.

Also, we DRY STEAM every rug and carpet to raise crushed pile. All domestic rugs and carpets resized to insure against limpness.

A naphtha cleaned rug or carpet retains its life and body.

DANCE LESSONS
COST NO MORE AT
ARTHUR MURRAY'S

THIS famous school of dancing has become a New York tradition. Arthur Murray's pupils include many people from our best families—smart young debs, society leaders, well-known business and professional men. Here they not only learn how to dance well, but later on return again and again to keep their dancing modern.

In Arthur Murray's pleasant studios you can quickly become a popular, interesting partner, though you may know little or nothing about dancing. His talented, expertly-trained staff has taught thousands of awkward individuals to dance rhythmically, faultlessly.

A few lessons are all you need. And you'll be astonished how little it costs. Rates were never lower. Why not call today for the interesting dance analysis offered *without charge?* Air-conditioned Studios open daily till 10 P. M. VAnderbilt 3-4034.

BEGINNERS A SPECIALTY

We invite you to come in any time and see for yourself! In fifteen minutes of actual demonstration you will learn more about dancing than in a lifetime of watching and wishing. Experienced teachers bring your dancing up to date...improve your lead...perfect your rhythm.

Every Home Needs This Help
—help that never takes a holiday the telephone.
During the day—it runs errands, saves trips in bad weather, keeps you in touch with friends, makes it easy for friends to keep in touch with you.
In the evening you can ask friends over, take care of a business matter or enjoy a chat with a friend or a relative near or far.
Any time, day or night, your telephone is always ready to bring help in an emergency.
The cost is perhaps no more than you and your family spend at public telephones. Why not order today at the Business Office and have your name in the next issue of the telephone directory?

Take the Short Cut—Do Your Shopping By Telephone

Communication Services FOR THE MODERN HOME OR OFFICE

Up-to-date telephone arrangements and services put more comfort and convenience in the home and more speed and efficiency in the office. A few of these convenient time-saving telephone facilities are listed below:

Telephone Systems
For communicating inside the home or office as well as outside from the same telephone instrument—the last word in telephone convenience.

Telephone Typewriters
For flashing over telephone wires written messages between various branches, factories, or office departments whether in the same building or across the continent.

Portable Telephones
Which plug into telephone outlets making available telephone service in any room or part of the premises desired.

Secretarial Plans
So that calls for persons absent or busy may be answered from the secretary's telephone. Additional features of holding and transferring calls may be provided.

Telephone Order Tables
For speeding the work of order takers and contact people who must talk to a large number of customers and prospects every day.

For complete particulars on these or other telephone services, just call the Telephone Business Office.

Every Home Needs This Help

—help that never takes a holiday
—the telephone

During the day—it runs errands, saves trips in bad weather, keeps you in touch with friends, makes it easy for friends to keep in touch with you.

In the evening you can ask friends over, take care of a business matter or enjoy a chat with a friend or a relative near or far.

Any time, day or night, your telephone is always ready to bring help in an emergency.

The cost is perhaps no more than you and your family spend at public telephones. Why not order today at the Business Office and have your name in the next issue of the telephone directory?

Every Home Needs This Help

—help that never takes a holiday —the telephone.

During the day—it runs errands, saves trips in bad weather, keeps you in touch with friends, makes it easy for friends to keep in touch with you.

In the evening you can ask friends over, take care of a business matter or enjoy a chat with a friend or a relative near or far.

Any time, day or night, your telephone is always ready to bring help in an emergency.

The cost is perhaps no more than you and your family spend at public telephones. Why not order today at the Business Office and have your name in the next issue of the telephone directory?

GUILTY?

Is there one of us who doesn't owe a letter—to someone—some place . . .? If we plead guilty, let's pass an easy sentence on ourselves: telephone that overdue letter—instead of writing! It's much more satisfying and costs so little, especially after 7 P. M. and all day Sunday when reduced rates are in effect to most places.

Every Home Needs This Help

—help that never takes a holiday
—the telephone.

During the day it runs errands, saves trips in bad weather, keeps you in touch with friends, makes it easy for friends to keep in touch with you

In the evening you can ask friends over, take care of a business matter or enjoy a chat with a friend or a relative near or far.

Any time, day or night, your telephone is always ready to bring help in an emergency.

The cost is perhaps no more than you and your family spend at public telephones. Why not order today at the Business Office and have your name in the next issue of the telephone directory?

WHAT THE TELETYPEWRITER SERVICE IS, AND HOW IT OPERATES

The teletypewriter looks and operates like an ordinary typewriter. Messages, reports, inquiries, typed in your office are *instantly* and identically reproduced on any other teletypewriter to which it is connected . . . 300 feet or 3,000 miles away.

As a subscriber to this Bell System service, your typist simply calls the desired teletypewriter by typing its number and "central" immediately makes the connection.

TEN OUTSTANDING FEATURES

Availability . . The same as telephone service. Teletypewriter "central" will connect any subscriber anywhere in the United States at any time to any other subscriber.
Speed . . . . Connections are fast—comparable to the telephone.
Two-Way Service . . . Subscribers can type back and forth on the same connection, making inquiries and replies possible.
Accuracy . . . The copy received is identical with that transmitted . . . Ambiguities in text can be clarified during the connection.
Simplicity . . Any competent typist can operate it.
Privacy . . . Communication is direct between sender and receiver.
Flexibility . . Letter sized paper or your own forms for orders, reports, deliveries, and similar matters can be used . . . As many as six copies can be made by each teletypewriter.
Permanent Records . . . Each subscriber has typewritten copy.
Low Cost . . A most economical form of written communication.
Dependability . A Bell System service.

Every Home Needs This Help

—help that never takes a holiday—the telephone.

During the day—it runs errands, saves trips in bad weather, keeps you in touch with friends, makes it easy for friends to keep in touch with you.

In the evening you can ask friends over, take care of a business matter or enjoy a chat with a friend or a relative near or far.

Any time, day or night, your telephone is always ready to bring help in an emergency.

The cost is perhaps no more than you and your family spend at public telephones. Why not order today at the Business Office and have your name in the next issue of the telephone directory?

A New Way TO GET TOGETHER

How would you like to talk to as many as six persons at the same time in different cities over one telephone connection? If you wish to conduct a business conference or just get the family together on an important holiday occasion, it can be arranged as easily and conveniently as though everyone were seated around a table. ✱ Just call or dial Long Distance and ask for the Conference Operator. She will quickly arrange to connect your telephone with those of the other members of your conference. It is as easy to use as regular long distance service. Ask the Conference Operator to quote you rates
